INTRODUCTION

Atria University positions itself as India's first **Liberal STEM** university, with a curriculum built around project-based learning, interdisciplinary depth, and industry relevance. For recruiters, the defining strength of the Atria model is that internships and workplace exposure are not treated as add-ons; they are embedded in the student journey. Every programme includes **12 months of industry internships** alongside **40+ real-world projects**, enabling students to graduate with demonstrable work experience and a portfolio rather than classroom credentials alone. The university also emphasizes direct employer engagement through Centres of Excellence, partner-led internships, and live industry challenges.

EMBEDDED EXPERIENCE

With 12 months of industry internships and 40+ real-world projects, applied learning is built into the programme rather than added only at the end of the degree.

PLACEMENT SNAPSHOT

Placement outcomes reflect 100% placement, a package range of 4 to 16 lakhs, and a median package of 7.8 lakhs.

STRUCTURED HIRING INTERFACE

Career Services coordinates timelines, communication, and recruiter requirements, making campus hiring more organized and predictable.

RECRUITER PERSPECTIVE

WHY RECRUIT FROM ATRIA UNIVERSITY

Atria's public positioning combines workplace readiness, embedded internships, applied projects, and a structured placement process with 100% placement and packages ranging from 4 to 16 lakhs.

Hands-on project work aligned with industry application and technical problem-solving.

Lab-based learning that reinforces discipline-specific depth and practical execution.

WORKPLACE READINESS

Students are prepared through a sprint-based, project-led curriculum designed around real client problems, real deadlines, and direct industry application.

PLACEMENT MOMENTUM

Placement Rate: 100%, with a **Package Range: ₹4–16 LPA** and a **Median Package: ₹7.8 LPA**.

RECRUITER AND HIRING NETWORK

Recruiters and hiring organisations include Zato, WRI, Mooving Smart Mobility & Energy Pvt. Ltd, Incresco, 4see.ai, Crispr Bits, Gremont mobility, Weber Electrocorp, Daloft Aerospace, Altair (by Siemens), Ather Energy, Griden, Mycellium ecology, iom bioworks, Johnson & Johnson, PwC, and many more.

MEASURED PLACEMENT OUTCOMES

Placement Rate: 100%. Package Range: ₹4–16 LPA. Median Package: ₹7.8 LPA.

STRUCTURED TALENT PIPELINE

The student development pipeline includes mentoring, role selection, certifications, tech clubs, long-term résumé-building projects, mock interviews, résumé workshops, aptitude/CRT preparation, a **3-month corporate or research internship**, and a **6-month final-year internship** intended to convert into a PPO.

RECRUITER-FRIENDLY PROCESS

The placement policy requires employers to share job descriptions, eligibility criteria, and compensation details; recruitment is coordinated through Career Services on mutually agreed timelines, while companies retain autonomy in final selection and internship-to-placement opportunities are prioritized.

For organisations seeking an **structured internship-to-hire talent pipeline**, Atria University presents a model built on early industry exposure, applied portfolios, clearer role alignment, and stronger workplace readiness at the point of recruitment.
